Introduction - Saint Louis University

1 Introduction Frames for Hilbert spaces were introduced by Dunford and Schwartz in 1958 [DS] to address some questions in non-harmonic Fourier series. However, the current popularity of frames is largely due to their successful application to signal processing which was initiated by Daubechies, Grossmann, and Meyer in 1986 [DGM].

Introduction Frames for - users.math.yale.edu

1 Introduction Frames have been used in many applications of signal processing. They give stable signal representations and allow modelling for noisy environments. Recent work with hyperspectral data has shown the need to consider subspaces of high dimensional spaces. In particular, ongoing work has led us to investigate frames for these.
