From Molecule to Metaphor: A Neural Theory of Language

Language and thought are not best studied as formal mathematics and logic, but as adaptations that enable creatures like us to thrive in a wide range of situations" (p 7) Although it may seem paradoxical to try formalizing this view in a computational theory of language comprehension, this is exactly what From Molecule to Metaphor does

Inferentialism and Some of Its Challenges

takes the contents of logical concepts as paradigmatic (Peacocke, for instance, takes a somewhat different tack³) But one might well ask what motivation there is for adopting this paradigm at all Granted 3 In A Study of Concepts (Cambridge, MA: MIT Press, A Bradford ...

Looking beyond looks Looking beyond looks: Comments on ...

But experimental evidence is only as good as the theory and logic upon which it rests Unfortunately, SKF's approach to each of the key

constructs—concepts, perceptual information, categorization, induction—misses its mark Bradford Book/MIT Press Looking beyond looks p 7

Representing Deontic Concepts for CNLs

language syntax and semantics ([1], [2] and [3]) In this paper, we outline some key points from [4], which discusses the natural language syntax and formal semantics of deontic concepts This presentation serves as a high level departure point and framework for CNLs which aim to extend the expressivity of the language to the deontic

Project Planning and Development

Native Language grants provide opportunities to assess, plan, develop and implement projects to ensure the survival and continuing vitality of native languages ANA believes language revitalization and continuation are two of the first steps taken in preserving and strengthening a community's culture

What is textual analysis? - Columbia University

visiting another culture that's different not only in language, but in its whole way of making sense of the world In their book on the Philippines, Alfredo and Grace Roces use this example to explain how different another culture's ways of making sense of the world can be: After two years in the Philippines, Albert G Bradford, an American
