The Abortion Caravan Apr 16 2021 In the spring of 1970, seventeen women set out from Vancouver in a big yellow convertible, a Volkswagen bus, and a pickup truck. They called it the Abortion Caravan. Three thousand miles later, they "occupied" the prime minister's front lawn in Ottawa, led a rally of 500 women on Parliament Hill, chained themselves to their chairs in the visitors' galleries, and shut down the House of Commons, the first and only time this had ever happened. The seventeen were a motley crew. They argued, they wore loud, and they wouldn't take no for an answer. They pulled off a national campaign in an era when there was no social media, and with a budget that didn't stretch to long-distance phone calls. It changed their lives. And at a time when thousands of women in Canada were dying from back street abortions, it pulled women together across the country.

Drop City Nov 11 2020 It is 1970, and a down-at-the-heels California commune decided to peace, free love, and the simple life has decided to relocate to the last frontier—the unforgiving landscape of interior Alaska—in the ultimate expression of going back to the land. Armed with the spirit of adventure and naïve optimism, the inhabitants of "Drop City" arrive in the wilderness of Alaska only to find their utopia already populated by other young homesteaders. When the two communities collide, unexpected friendships and dangerous enmities are born as everyone struggles with the bare essentials of life: love, nourishment, and a roof over one's head. Rich, allusive, and un sentimental, T.C. Boyle's ninth novel is a tour de force infused with the lyricism and take-no-prisoners storytelling for which he is justly famous.

The Crisis Caravan Dec 25 2021 A no-holds-barred, controversial exposé of the financial profiteering and ambiguous ethics that pervade the world of humanitarian aid: a cavalcade of organizations—some 37,000—compete for a share of the \$160 billion annual prize, with "fact-inflation" sometimes ramping up disaster coverage to draw in more funds. Insurgents and warring governments, meanwhile, have made aid a permanent feature of military strategy: refugee camps serve as base camps for genocidaires, and aid supplies are diverted to feed the troops. Even as humanitarian groups continue to assert the holy principle of impartiality, they have increasingly become participants in aid's abuses. In a narrative that is impassioned, gripping, and even darkly absurd, journalist Linda Polman takes us to war zones around the globe—from the NGO-dense operations in "Afghaniscam" to the floating clinics of Texas Mercy Ships proselytizing off the shores of West Africa—to show the often compromised results of aid workers' best intentions. It is time, Polman argues, to impose ethical boundaries, to question whether doing something is always better than doing nothing, and to hold humanitarianists responsible for the consequences of their deeds.

Riding the Roller Coaster May 30 2022 From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler's products, people, and performance over time—with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders—including Chrysler himself and Lee Iacocca—emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

Dogtripping Apr 04 2020 David Rosenfelt's Dogtripping is moving and funny account of a cross-country move from California to Maine, and the beginnings of a dog rescue foundation When mystery writer David Rosenfelt and his family moved from Southern California to Maine, he thought he had prepared for everything. They had mapped the route, brought three GPSs for backup, as well as refrigerators full of food, and stoves and microwaves on which to cook them. But traveling with twenty-five dogs turned out to be a bigger ordeal than he anticipated, despite the RVs, the extra kibble, volunteers (including a few readers), and camping equipment. Rosenfelt recounts the adventure of moving his animal companions across the United States with humor and warmth, and tells the tale of how he and his wife became passionate foster parents for rescue dogs, culminating in the creation of the Tara Foundation and successfully placing several thousand dogs with loving families. The Art of Mopar Feb 24 2022 The Art of Mopar: Chrysler, Dodge, and Plymouth Muscle Cars is the ultimate portrayal of history's ultimate muscle cars. This is the ultimate visual history of greatest muscle cars. The history of Chrysler Corporation is, in many ways, a history of a company floundering from one financial crisis to the next. While that has given shareholders fits for nearly a century, it has also motivated the Pentastar company to create some of the most outrageous, and collectible, cars ever built in the United States. From the moment Chrysler unleashed the Firepower hemi V-8 engine on the world for the 1951 model year, they had been cranking out the most powerful engines on the market. Because the company pioneered the use of lightweight unibody technology, it had the stiffest, lightest bodies in which to put those most powerful engines, and that is the basic muscle-car formula: add one powerful engine to one light car. When the muscle car era exploded onto the scene, Chrysler unleashed the mighty Mopar muscle cars, the Dodges and Plymouths that defined the era. Fabled nameplates like Charger, Road Runner, Super Bee, 'Cuda, and Challenger defined the era and rank among the most valuable collector cars ever produced by an American automaker.

The Vagabonds Jul 08 2020 A "fascinating slice of rarely considered American history" (Booklist)—the story of Henry Ford and Thomas Edison—whose annual summer sojourns introduced the road trip to our culture and made the automobile an essential part of modern life. In 1914 Henry Ford and naturalist John Burroughs visited Thomas Edison in Florida and toured the Everglades. The following year Ford, Edison, and tire maker Harvey Firestone joined together on a summer camping trip and decided to call themselves the Vagabonds. They would continue their summer road trips until 1925, when they announced that their fame made it too difficult for them to carry on. Although the Vagabonds traveled with an entourage of chefs, butlers, and others, this elite fraternity also had a serious purpose: to examine the conditions of America's roadways and improve the practicality of automobile travel. Cars were unreliable and the roads were even worse. But newspaper coverage of these trips was extensive, and as cars and roads improved, the summer trip by automobile soon became a desired element of American life. The Vagabonds is "a portrait of America's burgeoning love affair with the automobile" (NPR) but it also sheds light on the important relationship between the older Edison and the younger Ford, who once worked for the famous inventor. The road trips made the automobile ubiquitous and magnified Ford's reputation, even as Edison's diminished. The automobile would transform the American landscape, the American economy, and the American way of life and Guinn brings this seminal moment in history to vivid life.

Spies, Lies, and Exile Sep 09 2020 "Fascinating, rich, and probing . . . a beguiling and endlessly interesting portrait"—The Wall Street Journal For fans of John le Carré and Ben Macintyre, an exclusive first-person account of one of the Cold War's most notorious spies "Kuper provides a different and valuable perspective, humane and informative. If the definition of a psychopath is someone who refuses to accept the consequences of his actions, does George fit the definition? There he sits, admitting it was all for nothing, but has no regrets. Or does he?" —John le Carré Few Cold War spy stories approach the sheer daring and treachery of George Blake's. After fighting in the Dutch resistance during World War II, Blake joined the British spy agency MI6 and was stationed in Seoul. Taken prisoner after the North Korean army overran his post in 1950, Blake later returned to England to a hero's welcome, carrying a dark secret: while in a communist prison camp in North Korea, he had secretly switched sides to the KGB after reading Karl Marx's *Das Kapital*. As a Soviet double agent, Blake betrayed uncounted western spying operations—including the storied Berlin Tunnel, the most expensive covert project ever undertaken by the CIA and MI6. Blake exposed hundreds of western agents, forty of whom were likely executed. After his unmasking and arrest, he received, for that time, the longest sentence in modern British history—only to make a dramatic escape to the Soviet Union in 1966, five years into his forty-two-year sentence. He left his wife, three children, and a stunned country behind. Much of Blake's career existed inside the hall of mirrors that was the Cold War, especially following his sensational escape from Wormwood Scrubs prison. Veteran journalist Simon Kuper tracked Blake to his dacha outside Moscow, where the aging spy agreed to be interviewed for this unprecedented account of Cold War espionage. Following the master spy's death in Moscow at age ninety-eight on December 26, 2020, Kuper is finally able to set the record straight.

Caravan to the North Sep 29 2019 An urgent and eloquent account of a boy traveling in a caravan from his beloved homeland of El Salvador to the US border. This novel in verse is a powerful first-person account of Misael Martínez, a Salvadoran boy whose family joins the caravan heading north to the United States. We learn all the different reasons why people feel the need to leave — the hope that lies behind their decision, but also the terrible sadness of leaving home. We learn about how far and hard the trip is, but also about the kindness of those along the way. Finally, once the caravan arrives in Tijuana, Misael and those around him are relieved. They think they have arrived at the goal of the trip — to enter the United States. But then tear gas, hateful demonstrations, force and fear descend on these vulnerable people. The border is closed. The book ends with Misael dreaming of El Salvador. This beautiful and timely story is written in simple but poetic verse by Jorge Argueta, the award-winning author of *Somos como las nubes / We Are Like the Clouds*. Award-winning Mexican illustrator Manuel Monroy illuminates Misael's journey. An author's note is included, along with a map showing the caravan's route. Muted Memories Jun 06 2020 In the late nineteenth century, tens of thousands of porters carried ivory every year from the African interior to Bagamoyo, a port town at the Indian Ocean. In the opposite direction, they carried millions of meters of cloth, manufactured in the USA, Europe, and India. This book examines the centrality of the caravan trade, both culturally and economically, to Bagamoyo's development and cosmopolitan character, while also exploring how this history was silenced when Bagamoyo was instead branded as a slave route town in 2006 in an attempt to qualify it for the UNESCO World Heritage List.

The Joy of the Gospel Feb 01 2020 The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus. . . . In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." — Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, "to recognize the traces of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, *The Joy of the Gospel* is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of *Catholicism: A Journey to the Heart of the Faith* and James Martin, SJ, author of *Jesus: A Pilgrimage*.

The Alchemist Jan 14 2021 "My heart is afraid that it will have to suffer," the boy told the alchemist one night as they looked up at the moonless sky."
