Handbook of Forensic Analytical Toxicology Apr 02 2020 This book is a comprehensive guide to forensic analytical toxicology for trainees in forensic medicine and forensic scientists. The second edition has been fully revised to provide clinicians with the latest developments and research in the field. New chapters covering the latest analytical instruments have been added to this edition. Beginning with guidance on setting up a modern toxicology laboratory, the next sections, with the help of flow charts, explain the procedures for collection, preservation, extraction, and clean up; and screening and colour tests for various poisons. The following chapters describe numerous major and minor analytical instruments and techniques, and their application in forensic toxicology. The text is further enhanced by clinical images, figures and tables. The previous edition (9789351522249) published in 2014.

Goldfrank's Toxicologic Emergencies, Tenth Edition (ebook) May 04 2020 The standard-setting reference in medical toxicology—trusted as the leading evidencebased resource for poison emergencies A Doody's Core Title for 2017! For decades, one name has been synonymous with the most respected, rigorous perspectives on medical toxicology and the treatment of poisoned and overdosed patients: Goldfrank's Toxicologic Emergencies. Presented in full color, Goldfrank's delivers essential, patientcenteredcoverage of every aspect of poison management. The editors and authors are recognized as preeminent scholars in their specialties and provide unmatched coverage of all aspects of toxicologic emergencies, from pharmacology and clinical presentation to cutting-edge treatment strategies. Goldfrank's Toxicologic Emergencies, Tenth Edition begins with an examination of medical toxicology principles and techniques. It then reviews the biochemical, molecular, and pathophysiologic basis of toxicology, followed by an intense focus on toxicologic principles related to special patient populations. Features Case studies enhance your understanding of the clinical application of the text material Practical focus on the pathophysiologic basis of medical toxicology The Antidotes in Depth sections delivers the expertise of toxicologists across the world as they present treatments for critically ill poisoned and overdosed patients and allow you to easily identify key issues relating to the use of complex and often unfamiliar therapies The principles of risk management, medicolegal decision making, patient safety, post mortem toxicology and the assessment of ethanol induced impairment described in chapters and Special Considerations emphasize the interface between medical toxicology, the law, and quality care

Inside Terrorism Dec 11 2020 Bruce Hoffman's Inside Terrorism has remained the seminal work for understanding the historical evolution of terrorism and the terrorist mind-set. In this revised third edition of his classic text, Hoffman analyzes the latest developments in global terrorism, offering insight into new adversaries, motivations, strategies, and tactics. He focuses on the rise of ISIS and the resilience of al-Qaeda; terrorist exploitation of the Internet and embrace of social media; radicalization of foreign fighters; and potential future trends, including the repercussions of a post-caliphate ISIS. Hoffman examines the demographics of contemporary terrorist leaders and recruits; the continued use of suicide bombers; and the likelihood of a chemical, biological, radiological, or nuclear terrorist strike. He also considers the resurgence of violent antigovernment militants, including white supremacists and opponents of abortion. He argues that the war on terrorism did not end with Osama bin Laden's death and that ongoing instability and strife in Syria, Iraq, Afghanistan, Libya, and Yemen, among other places, will both sustain terrorist movements and have broad implications for domestic and international security around the globe.

Goldfrank's Toxicologic Emergencies, Eleventh Edition Aug 31 2022 Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. The best edition yet of the landmark text in medical toxicology A Doody's Core Title for 2019! Covering every aspect of poison management, this indispensable case-based resource has been thoroughly refreshed to deliver evidence-based principles viewed through the lens of an active bedside clinical practice. In no other reference will you find such a diverse roster of esteemed editors and authors who deliver expert insights into every type of toxicologic emergency, whether due to substance abuse or exposure to toxins. Fully referenced and supported by a cohesive organization and full-color format, Goldfrank's begins with a historical perspective on medical toxicology principles and the general approach to the patient. It then progresses to the fundamental principles of medical

toxicology, encompassing biochemical and molecular concepts; the effect of xenobiotics on vital organs and body systems; and toxicologic principles in special populations. The Eleventh Edition of Goldfrank's Toxicologic Emergencies is the most rigorous volume to date, driven by a precise analysis of the latest medical literature and complex cases designed to facilitate differential diagnosis. New to this Edition: •Additional cases and "Special Considerations" chapters designed to enhance clinical decision-making and patient outcomes •New "Antidotes in Depth" provides timely, critical information on toxicologic treatment strategies •New content on toxicogenomics explores its increasingly important role in predictive toxicology •Chapter-ending bulleted summaries of key points •Updated coverage of synthetics such as "K2" •Revised chapters on medical, clinical, and chemical toxicology include updated insights on poison emergencies, treatment strategies, and risk assessment tools

The Everything Kids' Baseball Book, 11th Edition Sep 19 2021 This newest edition to the long-running Everything Kids' Baseball series updated with current information on the 2018 and 2019 baseball seasons, refreshed bios, and an expanded look at fantasy baseball is "everything you want in a kid's book" (Associated Press). Now you can introduce young fans to the fun, action, and excitement of America's favorite pastime with this all-inclusive, updated edition of The Everything Kids' Baseball Book. Featuring dozens of puzzles and games, this edition has up-to-date stats for all of your favorite players and teams. Get to know the best star players today, learn the rules and history of the game, and start to develop your own baseball skills—from t-ball to the World Series—with this comprehensive guide to the entertaining world of baseball. Covering everything you need to know, this book is sure to be a grand slam for kids and parents alike!

Readings in Arkansas Politics and Government Nov 29 2019 This second edition of the authoritative Readings in Arkansas Politics and Government brings together in one volume some of the best available scholarly research on a wide range of issues of interest to students of Arkansas politics and government. The twenty-one chapters are arranged in three sections covering both historical and contemporary issues—ranging from the state's socioeconomic and political context to the workings of its policymaking institutions and key policy concerns in the modern political landscape. Topics covered include racial tension and integration, social values, political corruption, public education, obstacles facing the state's effort to reform welfare, and others. Ideal for use in introductory and advanced undergraduate courses, the book will also appeal to lawmakers, public administrators, journalists, and others interested in how politics and government work in Arkansas.

Lawyers' Reports Annotated Jun 04 2020

Practice Under Florida Probate Code 11th Edition Aug 19 2021 Written by skilled probate attorneys, Practice Under Florida Probate Code provides comprehensive analysis of all the steps you need to take to administer an estate in Florida. It features discussions of major changes to the Probate Code made over the past few years, alerts the user to recent changes to the Florida Probate Rules, and highlights relevant tax considerations. Forms, sample accountings, and charts for basic probate practice enhance the book's practitioner focus. Highlights of the new Eleventh Edition include coverage of: Florida courts' new ability to exercise in rem jurisdiction by formal notice over estate property under F.S. 731.301. Probate jurisdiction and the effect of the recent changes in jurisdictional amounts as to personal property under F.S. 26.012 and 34.01. Appealable orders in probate and guardianship cases and the new addition of a denial of entitlement to lawyer fees and costs as an appealable order. The lawyer-client relationship and the lawyer's role when the lawyer also serves as personal representative, and the new statutory disclosure requirements under F.S. 733.617. The payment of fees to a lawyer representing a personal representative and the new disclosure requirements under F.S. 733.6171. Notice of administration and the new language required to be included in the notice under F.S. 733.212 regarding the effect of failure to contest the will and waiver. New requirement for designating confidential information in court filings under Fla. R. Gen. Prac. & Jud. Admin. 2.420. Florida Legislature's authorization of electronic wills and remote online notaries, and the production of electronic wills for probate. The form for a petition for administration under Fla. R. Prob. Proc. 5.200 and the new requirement of a statement as to the priority of a personal representative under F.S. 733.301. New discussion of the filing of an affidavit of heirs with the petition for administration in intestate estate cases. New discussion of holographic wills. Unique valuation issues and other considerations associated with cryptocurrency and other digital assets. The transfer of estate assets and electronic registration of motor vehicles, mobile homes, and vessels. The enactment of the Florida Uniform Partition of Heirs' Property Act. The enactment of the Florida Community Property Trust Act. Effect of dissolution of marriage on a beneficiary designation and the legislative overruling of *Gordon v. Fishman*, 253 So. 3d 1218 (Fla. 2d DCA 2018). Procedure for closing an estate and a modified petition for discharge under FLSSI Forms P-5.0550 and P-5.0551 versus a "full waiver" under FLSSI Form P-5.0570. Will contests and the enactment of F.S. 732.8031 ("Forfeiture for abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or a disabled adult").

Hoffman's Index to Poetry Nov 21 2021 No descriptive material is available for this title.

The Law of Public Communication, 11th Edition Mar 26 2022 The eleventh edition of this classic textbook provides an overview of communication and media law that includes the most current legal developments. It explains the laws affecting the daily work of writers, broadcasters, PR practitioners, photographers and other public communicators. By providing statutes and cases in an accessible manner, even to students studying law for the first time, the authors ensure that students will acquire a firm grasp of the legal issues affecting the media. This new edition features discussions of hot topics such as the prosecution of WikiLeaks founder Julian Assange for Espionage Act violations, the U.S. Supreme Court's decision in *Iancu v. Brunetti* addressing the registration of offensive trademarks, revenge porn, FTC guidelines on social media influencers and efforts by social media platforms to develop coherent approaches to misinformation. The Law of Public Communication is an ideal core textbook for undergraduate and graduate courses in communication law and mass media law. A downloadable test bank is available for instructors at www.routledge.com/9780367476793.

At Risk May 16 2021 A New York Times bestseller from the author of *The Rules of Magic*: In 1980s America, a family copes with their daughter's terrifying diagnosis. In a lovely old house near the coast of Massachusetts, the Farrells go through the routines of a typical August morning. Eight-year-old Charlie, a junior biologist and dinosaur expert, tries to collect one of his insect specimens. His sister, Amanda, a talented gymnast who at eleven years old is already saving her money to try out for the Olympics, prepares for her last meet of the summer. Ivan, their absent-minded father, is involved with his work as an astronomer. Out in the garden, his wife, Polly, wonders how she can trick her children into eating more zucchini. They are a family as unique and ordinary as any other, but their world will soon be shattered when Amanda is diagnosed with the disease that has been making headlines lately: AIDS. The new and still-mysterious ailment scares them—and their friends and neighbors as well. In an instant, everything that gave their lives meaning is ripped away, and the intimacy that once came so naturally vanishes. Too overcome with grief to turn to each other, Ivan and Polly seek solace elsewhere. Charlie is abandoned by his best friend and, for long stretches at a time, forgotten by his parents. Amanda, who holds on to her dreams so tightly, must somehow find a way to let go. Torn apart by the prospect of their loss, Polly, Ivan, and Charlie must find the courage to come back together again—for Amanda's sake and for their own. *At Risk* is an exquisite book about true sorrow and even truer devotion.

Faithful Jul 26 2019 From the New York Times bestselling author of *The Marriage of Opposites* and *The Dovekeepers* comes a soul-searching story about a young woman struggling to redefine herself and the power of love, family, and fate. Growing up on Long Island, Shelby Richmond is an ordinary girl until one night an extraordinary tragedy changes her fate. Her best friend's future is destroyed in an accident, while Shelby walks away with the burden of guilt. What happens when a life is turned inside out? When love is something so distant it may as well be a star in the sky? *Faithful* is the story of a survivor, filled with emotion—from dark suffering to true happiness—a moving portrait of a young woman finding her way in the modern world. A fan of Chinese food, dogs, bookstores, and men she should stay away from, Shelby has to fight her way back to her own future. In New York City she finds a circle of lost and found souls—including an angel who's been watching over her ever since that fateful icy night. Here is a character you will fall in love with, so believable and real and endearing, that she captures both the ache of loneliness and the joy of finding yourself at last. For anyone who's ever been a hurt teenager, for every mother of a daughter who has lost her way, *Faithful* is a roadmap. Alice Hoffman's "trademark alchemy" (USA TODAY) and her ability to write about the "delicate balance between the everyday world and the extraordinary" (WBUR) make this an unforgettable story. With beautifully crafted prose, Alice Hoffman spins hope from heartbreak in this profoundly moving novel.

Legal Essentials of Health Care Administration Jun 24 2019 Using the same approach, this text provides a distillation of the widely popular *Legal Aspects of Health Care Administration*. It presents an overview of health law topics in an interesting and understandable format, leading the reader through the complicated maze of the legal system. The topics presented in this book create a strong foundation in health law. This book is a sound reference for those who wish to become more informed about how the law, ethics, and health care intersect. Features: A historical perspective on the development of hospitals, illustrating both their progress and failures through the centuries. Actual court cases, state and federal statutes, and common-law principles are examined. A broad discussion of the legal system, including the sources of law and government organization. A basic review of tort law, criminal issues, contracts, civil procedure and trial practice, and a wide range of real life legal and ethical dilemmas that caregivers have faced as they wound their way through the courts. An overview of various ways to improve the quality and delivery of health care.

The Outside Sep 27 2019 Humanity's super-intelligent AI Gods brutally punish breaches in reality, as one young scientist discovers, in this intense and brilliant space opera. Autistic scientist Yasira Shien has developed a radical new energy drive that could change the future of humanity. But when she activates it, reality warps, destroying the space station and everyone aboard. The AI Gods who rule the galaxy declare her work heretical, and Yasira is abducted by their agents. Instead of simply executing her, they offer mercy – if she'll help them hunt down a bigger target: her own mysterious, vanished mentor. With her homeworld's fate in the balance, Yasira must choose who to trust: the gods and their ruthless post-human angels, or the rebel scientist whose unorthodox mathematics could turn her world inside out. File Under: Science Fiction [False Gods | Angel Inside | Autistic in Space | Here be Monsters]

Calculus for Business, Economics, and the Social and Life Sciences Oct 01 2022 *Calculus for Business, Economics, and the Social and Life Sciences* introduces calculus in real-world contexts and provides a sound, intuitive understanding of the basic concepts students need as they pursue careers in business, the life sciences, and the social sciences. The new Ninth Edition builds on the straightforward writing style, practical applications from a variety of disciplines, clear step-by-step problem solving techniques, and comprehensive exercise sets that have been hallmarks of Hoffmann/Bradley's success through the years.

Analysis in Euclidean Space Feb 22 2022 Developed for an introductory course in mathematical analysis at MIT, this text focuses on concepts, principles, and methods. Its introductions to real and complex analysis are closely formulated, and they constitute a natural introduction to complex function theory. Starting with an overview of the real number system, the text presents results for subsets and functions related to Euclidean space of n dimensions. It offers a rigorous review of the fundamentals of calculus, emphasizing power series expansions and introducing the theory of complex-analytic functions. Subsequent chapters cover sequences of functions, normed linear spaces, and the Lebesgue interval. They discuss most of the basic properties of integral and measure, including a brief look at orthogonal expansions. A chapter on differentiable mappings addresses implicit and inverse function theorems and the change of variable theorem. Exercises appear throughout the book, and extensive supplementary material includes a Bibliography, List of Symbols, Index, and an Appendix with background in elementary set theory.

Finding Purpose Jan 30 2020 Both thoughtful and thought-provoking, *Finding Purpose* aims to challenge our understanding of how humanity interacts with planet Earth, and our role within this. This book is an invitation: would you like to participate in one of the most important projects of imagination, perhaps the greatest ever, in human history? Distilling and refining over 20 pieces from a lifetime of work in academia and trade, across speeches, blogs, editorials and essays, Hoffman invites us to look beyond material growth and explore the role of the individual and business in discovering a wider purpose to bring about a balanced and sustainable society. The reader is encouraged to consider humanity's relationship with the environment through different lenses: business, academia, faith-based and cultural. By bringing them together, Hoffman encourages us to understand our relationship with the planet in a far more holistic sense. Drawing on ideas from philosophy, literature, natural sciences and politics, Hoffman ensures that the ideas he explores are wholly accessible and applicable. Fully substantiated through various research and examples, the issues described are consistently made relevant to the reader. *Finding Purpose* is the perfect book for anyone – from student to CEO – thinking about their place in the world, and how making changes in our own lives and societies can impact on the world around us.

Goldfrank's Toxicologic Emergencies, Eleventh Edition Jun 28 2022 Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Goldfrank's is the premier toxicology textbook that should be in every emergency department or poison center library. Whether you are a student, resident, or faculty, there is something here for you. If you are a toxicology fellow or poison specialist studying for your boards, this is your go-to book. I highly recommend this work... –The Journal of Emergency Medicine The best edition yet of the landmark text in medical toxicology A Doody's Core Title for 2020! Covering every aspect of poison management, this indispensable case-based resource has been thoroughly refreshed to deliver evidence-based principles viewed through the lens of an active bedside clinical practice. In no other reference will you find such a diverse roster of esteemed editors and authors who deliver expert insights into every type of toxicologic emergency, whether due to substance abuse or exposure to toxins. Fully referenced and supported by a cohesive organization and full-color format, Goldfrank's begins with a historical perspective on medical toxicology principles and the general approach to the patient. It then progresses to the fundamental principles of medical toxicology, encompassing biochemical and molecular concepts; the effect of xenobiotics on vital organs and body systems; and toxicologic principles in special populations. The Eleventh Edition of Goldfrank's *Toxicologic Emergencies* is the most rigorous volume to date, driven by a precise analysis of the latest medical literature and complex cases designed to facilitate differential diagnosis. New to this Edition: • Additional cases and "Special Considerations" chapters designed to enhance clinical decision-making and patient outcomes • New "Antidotes in Depth" provides timely, critical information on toxicologic treatment strategies • New content on toxicogenomics

explores its increasingly important role in predictive toxicology • Chapter-ending bulleted summaries of key points • Updated coverage of synthetics such as “K2” • Revised chapters on medical, clinical, and chemical toxicology include updated insights on poison emergencies, treatment strategies, and risk assessment tools

Economics Jan 12 2021 **Economics: Theory & Practice, 11th Edition** by Patrick J. Welch and Gerry F. Welch connects theory to the practice of economics and the everyday world through examples and applications, debates, and critical thinking cases—some that are classics in the field and others that are fresh and up-to-date. Its balanced coverage of microeconomics and macroeconomics, flexibility in topic coverage order, and the use of appendices and chapter sections to shorten or deepen course material offer a choice of levels and sequences for a course.

The Startup of You (Revised and Updated) Aug 26 2019 The groundbreaking #1 New York Times bestseller that taught a generation how to transform their careers—now in a revised and updated edition “A profound book about self-determination and self-realization.”—Senator Cory Booker “The Startup of You is crammed with insights and strategies to help each of us create the work life we want.”—Gretchen Rubin, author of *The Happiness Project* In this invaluable book, LinkedIn co-founder Reid Hoffman and venture capitalist Ben Casnocha show how to accelerate your career in today’s competitive world. The key is to manage your career as if it were a startup business: a living, breathing, growing startup of you. Why? Startups—and the entrepreneurs who run them—are nimble. They invest in themselves. They build their professional networks. They take intelligent risks. They make uncertainty and volatility work to their advantage. These are the very same skills professionals need to get ahead today. This book isn’t about cover letters or résumés. Instead, you will learn the best practices of the most successful startups and how to apply these entrepreneurial strategies to your career. Whether you work for a giant multinational corporation, stitch together multiple gigs in a portfolio career, or are launching your own venture, you need to know how to • adapt your career plans as pandemics rage and technologies upend industries • develop a competitive advantage so that you stand out from others at work • strengthen your professional network by building powerful alliances and maintaining a diverse mix of relationships • engineer serendipity that produces life-changing career opportunities • take proactive risks to become more resilient to industry tsunamis • tap your network for information and intelligence that help you make smarter decisions The career landscape has changed dramatically in the decade since Hoffman and Casnocha first published this guide. In an urgent update to the frameworks that have helped hundreds of thousands of people transform their careers, this new edition of *The Startup of You* will teach you how to achieve your boldest professional ambitions.

Inc. Yourself, 11th Edition Oct 21 2021 *Inc. Yourself* is the longest-selling business book in the history of trade publishing. In continuous print since 1977, it has sold more than 700,000 copies to date. For 37 years it has helped entrepreneurs, small-business owners, and professionals save thousands of dollars a year by incorporating. More than 10 million Americans have started their own business since 2002. This “entrepreneurial classic” (CNBC) is now completely revised and updated to help new and recent entrepreneurs—many of them Fortune 500 downsizing casualties. Written in clear, easy-to-understand language, *Inc. Yourself* is a no-nonsense, step-by-step guide to success. It provides meticulously researched information on the latest tax laws and legislation that affect individuals and small businesses. From selecting the right type of corporation for your business or profession to choosing the benefits to offer and designing the right pension plan, *Inc. Yourself* provides all the information and guidance you need to take charge of your career and secure a profitable future.

Green Angel Dec 31 2019 Alice Hoffman is at her magical best in a new novel about loss and healing. When her family is lost in a terrible disaster, 15-yr-old Green is haunted by loss and by the past. Struggling to survive physically and emotionally in a place where nothing seems to grow and ashes are everywhere, Green retreats into the ruined realm of her garden. But in destroying her feelings, she also begins to destroy herself, erasing the girl she'd once been as she inks ravens into her skin. It is only through a series of mysterious encounters -- with a ghostly white dog and a mute boy -- that Green relearns the lessons of love and begins to heal as she tells her own story.

Precalculus Mar 14 2021 "Precalculus is intended for college-level precalculus students. Since precalculus courses vary from one institution to the next, we have attempted to meet the needs of as broad an audience as possible, including all of the content that might be covered in any particular course. The result is a comprehensive book that covers more ground than an instructor could likely cover in a typical one- or two-semester course; but instructors should find, almost without fail, that the topics they wish to include in their syllabus are covered in the text. Many chapters of OpenStax College Precalculus are suitable for other freshman and sophomore math courses such as College Algebra and Trigonometry; however, instructors of those courses might need to supplement or adjust the material. OpenStax will also be releasing College Algebra and Algebra and trigonometry titles tailored to the particular scope, sequence, and pedagogy of those courses."--Preface.

Study Guide for Goldfrank's Toxicologic Emergencies covers: General approach to the poisoned patient Principles of medical toxicology Clinical basis of medical toxicology Poison prevention and education Research principles Legal and forensic considerations

The Evolution of the Global Terrorist Threat Mar 02 2020 Examining major terrorist acts and campaigns undertaken in the decade following September 11, 2001, internationally recognized scholars study the involvement of global terrorist leaders and organizations in these incidents and the planning, organization, execution, recruitment, and training that went into them. Their work captures the changing character of al-Qaeda and its affiliates since the invasions of Afghanistan and Iraq and the sophisticated elements that, despite the West's best counterterrorism efforts, continue to exert substantial direction over jihadist terrorist operations. Through case studies of terrorist acts and offensives occurring both in and outside the West, the volume's contributors investigate al-Qaeda and other related entities as they adapted to the strategies of Operation Enduring Freedom and subsequent U.S.-led global counterterrorism programs. They explore whether Osama bin Laden was indeed reduced to a mere figurehead before his death or continued to influence al-Qaeda's global activities. Did al-Qaeda become a loose collection of individuals and ideas following its expulsion from Afghanistan, or was it reborn as a transnational terrorist structure powered by a well-articulated ideology? What is the preeminent terrorist threat we face today, and what will it look like in the future? This anthology pinpoints the critical patterns and strategies that will inform counterterrorism in the coming decades.

New York Court of Appeals. Records and Briefs. Jul 06 2020 Volume contains: 133 AD 895 (Foote v. Leary et al.)

Experience Matters: (Here's Mine) May 28 2022 You've heard, "Experience is the best teacher" - but the saying doesn't end there. We often forget the important conclusion: "...especially when it's someone else's experience." If you're only learning from your own experience, you're wasting years of time doing all the wrong things. When we learn from the experiences of others, we can save those years and make the right decisions when they count. Who has the experience you should learn from? Anyone and everyone, including the author of this book. Over six decades, Ed Hoffman has gained the experience you need to get through life without: - Student debt - Lost sales - Bad investments - Foreclosure - Marital strife - Parenting regrets - Time-draining hobbies - Information confusion ...And other mistakes you'd like to avoid personally and professionally. Written during the COVID-19 pandemic, Experience Matters is full of (brutal) honesty and humor. From his 800-mile trek to Pelican Bay Prison to do business with one of the LAPD's top 10 most wanted, to hustling his way into a sport and becoming Amateur World Champion, to witnessing the 2008 mortgage meltdown from behind the curtain, Ed's experiences can inspire you to do whatever it takes to reach your goals. Each chapter includes movie dialogue, because films that depict life experiences can be some of our best teachers. Are you ready to get experienced? Ed's life is full of lessons, and he's ready to share them with you. Ed Hoffman has 30+ years of real estate investing and mortgage experience, and more than a decade as a conservative commentator. He's learned lessons the hard way so you don't have to. His weekly radio show/podcast, The Main Event, airs on Salem Radio Network stations and his website EdHoffman.net. He and his wife Dawn live in Southern California.
