Crispin: At the Edge of the World Jun 24 2019 The more I came to know of the world, the more I knew I knew it not. He was a nameless orphan, marked for death by his masters for an unknown crime. Discovering his name Crispin only intensified the mystery. Then Crispin met Bear, who helped him learn the secret of his full identity. And in Bear the enormous, red-bearded juggler, sometime spy, and everyday philosopher Crispin also found a new father and a new world. Now Crispin and Bear have set off to live their lives as free men

The Complete Latin Course Mar 14 2021 The Complete Latin Course is a comprehensive introduction to Latin for students and armchair enthusiasts alike. This modern, user-friendly text offers a series of fascinating glimpses into the world of ancient Rome, and sets you up to read Virgil, Cicero, Juvenal, Tacitus and many other authors in the original Latin. The story of Rome is told by the ancient authors themselves. Authentic texts help to guide the student through the mechanics of Latin, whilst giving insights into the history of Rome, her culture and society, her gods, her games, her power struggles and the eventual fall of empire. Originally published as Essential Latin, this extensively revised and expanded second edition features: Reading passages from Latin prose authors, including Cicero, Petronius, Pliny, Sallust, Suetonius and Tacitus, and from poets (Catullus, Horace, Juvenal, Martial, Ovid and Virgil) with guidance on reading aloud and meter. A detailed step-by-step approach to Latin grammar, with engaging activities and exercises. A companion website with a full answer key for exercises, translations, grammar reference tables for the USA, the UK, Europe and elsewhere, additional exercises, word lists and other supports: <http://www.lingua.co.uk/latin/materials/complete-latin> Ideal for classroom use or independent study, The Complete Latin Course will prove an invaluable resource for undergraduate and postgraduate students, adult learners and anyone interested in comprehensively developing their knowledge of Latin.

Economic Growth, Material Flows and the Environment May 04 2020 This volume provides a valuable introduction to hybrid I-O analysis and therefore should be useful to the growing number of researchers working with these techniques. Timothy J. Considine, Journal of Industrial Ecology This is a first-rate piece of work. . . Dr Hoekstra's book is the most comprehensive assessment of economic decomposition analysis to date. The author has clarified some confusions, filled in some important gaps in the literature and extended the methods both conceptually and empirically. He has done a most thorough job of constructing hybrid input output tables and applied them to the important issue of trends in material production use. His use of SDA for forecasting and backcasting of trends and policy making is also very impressive. Adam Rose, Pennsylvania State University, US Rutgers Hoekstra examines the complex relationship between the monetary economy and the materials flows that are extracted and emitted by economic activities. These physical flows are responsible for many important environmental problems such as unsustainable resource depletion, waste production and climate change. This book discusses, applies and improves upon techniques which link the monetary and physical economies for environmental analyses. The book uses two sources of analysis: the physical input-output table (PIOT), a macro-economic account for the physical economy, recording material and product flows, including resource extraction, emissions and recycling; and structural decomposition analysis (SDA), which assesses the influence of structural changes, such as economic growth, consumption shifts, export growth and technological change, on environmental indicators. Methodological improvements in the PIOT and SDA systems are then presented by the author, and applied to empirical data. Ecological and industrial economists, along with those with an interest in environmental problems associated with the economy will find this book, with its extensive historical analysis and novel fore- and back-casting models, to be a fascinating read.

Emergency and Trauma Care for Nurses and Paramedics Feb 22 2022 The second edition of Emergency and Trauma Care for Nurses and Paramedics provides the most up-to-date and comprehensive coverage of clinical procedures and issues encountered in contemporary emergency care in Australia and New Zealand. Written by leading academics and clinicians, this fully revised and updated edition follows the patient's journey from pre-hospital retrieval to definitive care. With a strong focus on multidisciplinary care, this evidence-based emergency and trauma resource will appeal to pre-hospital care providers, rural, remote and urban emergency nurses and allied health professionals, as well as disaster management and interfacility transport staff. Essential concepts are covered in a logical order, commencing with: An introduction to emergency professions and professional issues Clinical and health systems Patient presentations ordered by body system as well as toxicology, envenomation, ocular, environmental emergencies and unique population groups Major trauma assessment and management and end-of-life care information and considerations. Emergency and Trauma Care for Nurses and Paramedics 2e continues to be the pre-eminent resource for students preparing to enter the emergency environment and for clinicians seeking a greater understanding of multidisciplinary care from retrieval through to rehabilitation. A cultural safety approach is included throughout - addressing cultural diversity, beliefs and values and focusing on Aboriginal and Torres Strait Islander health and Māori health Essentials outline the main points addressed in each chapter Practice tips throughout assist with communication skills, procedures and assessment Case studies are supported by questions and answers to encourage active learning New online resources available on Evolve, including over 30 new case studies with paramedic-specific questions. Highlighted skills - cross references to the Clinical Skills chapter throughout text Over 30 new case studies Patient journey from pre-hospital and emergency-specific case studies Critical thinking questions at the end of chapters Chapter 35 Obstetric emergencies now includes 'Supporting a normal birth'.
