**The Edge of Race** Nov 29 2019 The phrase 'the edge of race' can be used both as a description and as a response to two key concerns. The first of these is that while race is increasingly on the periphery of education policy – with a growing disregard shown for racist inequities, as education systems become dominated by market-driven concerns – it is important that we map the shifting relations of race in neoliberal politics and policies. The second concern is that at this time, within and outside the spaces of the academy, even to mention race equity is to risk condemnation, marginalization, and ridicule. The authors in this collection use 'the edge of race' as a provocation in order to examine the concepts, methodologies, policies, politics, processes, and practices associated with race and racism in education. The chapters offer empirical examples of the perpetuation and perniciousness of racism that point to the continued salience of research about race. Additionally, the chapters make contributions to conceptual and methodological understandings of race and racism. The contributors illustrate the contingency, productivity, and fragility of race as a concept, and point to how educational research continues to be a contested site in, and from which to study, race and education. This book was originally published as a special issue of *Discourse: Studies in the Cultural Politics of Education*.

**Race, Culture, and Identities in Second Language Education** Feb 22 2022 The concept and construct of race is often implicitly yet profoundly connected to issues of culture and identity. Meeting an urgent need for empirical and conceptual research that specifically explores critical issues of race, culture, and identities in second language education, the key questions addressed in this groundbreaking volume are these: How are issues of race relevant to second language education? How does whiteness influence students' and teachers' sense of self and instructional practices? How do discourses of racialization influence the construction of student identities and subjectivities? How do discourses on race, such as colorblindness, influence classroom practices, educational interventions, and parental involvement? How can teachers transform the status quo? Each chapter is grounded in theory and provides implications for engaged practice. Topics cover a wide range of themes that emerge from various pedagogical contexts. Authors from diverse racial/ethnic/cultural backgrounds and geopolitical locations include both established and beginning scholars in the field, making the content vibrant and stimulating. Pre-reading Questions and Discussion Questions in each chapter facilitate comprehension and encourage dialogue.

DisCrit—Disability Studies and Critical Race Theory in Education Sep 07 2020 This groundbreaking volume brings together major figures in Disability Studies in Education (DSE) and Critical Race Theory (CRT) to explore some of today's most important issues in education. Scholars examine the achievement/opportunity gaps from both historical and contemporary perspectives, as well as the overrepresentation of minority students in special education and the school-to-prison pipeline. Chapters also address school reform and the impact on students based on race, class, and dis/ability and the capacity of law and policy to include (and exclude). Readers will discover how some students are included (and excluded) within schools and society, why some citizens are afforded expanded (or limited) opportunities in life, and who moves up in the world and who is

trapped at the “bottom of the well.” Contributors: D.L. Adams, Susan Baglieri, Stephen J. Ball, Alicia Broderick, Kathleen M. Collins, Nirmala Erevelles, Edward Fergus, Zanita E. Fenton, David Gillborn, Kris Guitierrez, Kathleen A. King Thorius, Elizabeth Kozleski, Zeus Leonardo, Claustina Mahon-Reynolds, Elizabeth Mendoza, Christina Paguyo, Laurence Parker, Nicola Rollock, Paolo Tan, Sally Tomlinson, and Carol Vincent “With a stunning set of authors, this book provokes outrage and possibility at the rich intersection of critical race, class, and disability studies, refracting back on educational policy and practices, inequities and exclusions but marking also spaces for solidarities. This volume is a must-read for preservice, and long-term educators, as the fault lines of race, (dis)ability, and class meet in the belly of educational reform movements and educational justice struggles.” —Michelle Fine, distinguished professor of Critical Psychology and Urban Education, The Graduate Center, CUNY “Offers those who sincerely seek to better understand the complexity of the intersection of race/ethnicity, dis/ability, social class, and gender a stimulating read that sheds new light on the root of some of our long-standing societal and educational inequities.” —Wanda J. Blanchett, distinguished professor and dean, Rutgers University, Graduate School of Education

Distributed Blackness Oct 09 2020 An explanation of the digital practices of the black Internet From BlackPlanet to #BlackGirlMagic, Distributed Blackness places blackness at the very center of internet culture. André Brock Jr. claims issues of race and ethnicity as inextricable from and formative of contemporary digital culture in the United States. Distributed Blackness analyzes a host of platforms and practices (from Black Twitter to Instagram, YouTube, and app development) to trace how digital media have reconfigured the meanings and performances of African American identity. Brock moves beyond widely circulated deficit models of respectability, bringing together discourse analysis with a close reading of technological interfaces to develop nuanced arguments about how “blackness” gets worked out in various technological domains. As Brock demonstrates, there’s nothing niche or subcultural about expressions of blackness on social media: internet use and practice now set the terms for what constitutes normative participation. Drawing on critical race theory, linguistics, rhetoric, information studies, and science and technology studies, Brock tabs between black-dominated technologies, websites, and social media to build a set of black beliefs about technology. In explaining black relationships with and alongside technology, Brock centers the unique joy and sense of community in being black online now.

**Critical Pedagogy, Race, and Media** May 28 2022 Critical Pedagogy, Race, and Media investigates how popular media offers the potential to radicalise what and how we teach for inclusivity. Bringing together established scholars in the areas of race and pedagogy, this collection offers a unique approach to critical pedagogy by analysing current and historical iterations of race on screen. The book forms theoretical and methodological bridges between the disciplinary fields of pedagogy, equality studies, and screen studies to explore how we might engage in and critique screen culture for teaching about race. It employs Critical Race Theory and paradigmatic frameworks to address some of the social crises in Higher Education classrooms, forging new understandings of how notions of race are buttressed by popular media. The chapters draw on popular media as a tool to explore the social, economic, and cultural dimensions of racial injustice and are grouped by Black studies, migration studies, Indigenous studies, Latinx studies, and Asian studies. Each chapter addresses diversity and the necessity for teaching to include visual media which is reflective of a myriad of students’ experiences. Offering opportunities for using popular media to teach for inclusion in Higher Education, this critical and timely book will be highly relevant for academics, scholars, and students across interdisciplinary fields such as pedagogy, human geography, sociology, cultural studies, media studies, and equality studies.

Race and Cultural Practice in Popular Culture Jun 04 2020 Race and Cultural Practice in Popular Culture is an innovative work that freshly approaches the concept of race as a social factor made concrete in popular forms, such as film, television, and music. The essays collectively push past the reaffirmation of static conceptions of identity, authenticity, or conventional interpretations of stereotypes and bridge the intertextual gap between theories of community enactment and cultural representation. The book also draws together and melds otherwise isolated academic theories and methodologies in order to focus on race as an ideological reality and a process that continues to impact lives despite allegations that we live in a post-racial America. The collection is separated into three parts: Visualizing Race (Representational Media), Sounding Race (Soundscape), and Racialization in Place (Theory), each of which considers visual, audio, and geographic sites of racial representations respectively.

**Race, Culture and Media** Mar 26 2022 How do media ‘make’ race? How do legacies of empire shape our understandings of race and media? How does racism structure the media industries? Is the internet an inherently white space? Understanding the relationship between race, culture and media has never been more important. From the demonisation of Muslims to rampant new forms of racism on digital platforms, media are central to understanding how race is both constructed and experienced in everyday life. Yet media are key to resisting racism, too. While they can silence and stereotype us, they can also enable us to cut across difference, to contest and mobilise, and to create genuine community. Race, Culture and Media is a critical, impassioned and accessible exploration of this complex relationship. Anamik Saha outlines the theories, concepts and research you need to know in order to make sense of race, culture and media today - challenging you to move beyond simplistic notions of ‘diversity’ to really engage with issues of both power and participation. It is essential reading for students and researchers across media, communication and cultural studies. Dr Anamik Saha is Senior Lecturer in Media and Communications at Goldsmiths, University of London, where he convenes the MA Race, Media and Social Justice.

**Culture Centers in Higher Education** Sep 27 2019 Are cultural centers ethnic enclaves of segregation, or safe havens that provide minority students with social support that promotes persistence and retention? Though Black cultural centers boast a 40-year history, there is much misinformation about them and the ethnic counterparts to which they gave rise. Moreover, little is known about their historical roots, current status, and future prospects. The literature has largely ignored the various culture center models, and the role that such centers play in the experiences of college students. This book fills a significant void in the research on ethnic minority cultural centers, offers the historic background to their establishment and development, considers the circumstances that led to their creation, examines the roles they play on campus, explores their impact on retention and campus climate, and provides guidelines for their management in the light of current issues and future directions. In the first part of this volume, the contributors provide perspectives on culture centers from the point of view of various racial/ethnic identity groups, Latina/o, Asian, American Indian, and African American. Part II offers theoretical perspectives that frame the role of culture centers from the point of view of critical race theory, student development theory, and a social justice framework. Part III focuses specifically on administrative and practice-oriented themes, addressing such issues as the relative merits of full- and part-time staff, of race/ethnic specific as opposed to multicultural centers, relations with the outside community, and integration with academic and student affairs to support the mission of the institution. For administrators and student affairs educators who are unfamiliar with these facilities, and want to support an increasingly diverse student body, this book situates such centers within the overall strategy of improving campus climate, and makes the case for sustaining them. Where none as yet exist, this book offers a rationale and blueprint for creating such centers. For leaders of culture centers this book constitutes a valuable tool for assessing their viability, improving their performance, and ensuring their future relevance – all considerations of increased importance when budgets and resources are strained. This book also provides a foundation for researchers interested in further investigating the role of these centers in higher education.

*Foundations of Critical Race Theory in Education* Dec 11 2020 The emergence of Critical Race Theory (CRT) marked a pivotal moment in the history of racial politics within the academy and powerfully influenced the broader conversation about race and racism in the United States and beyond. Comprised of articles by some of the most prominent scholars in the field of CRT, this groundbreaking anthology is the first to pull together both the foundational writings and more recent scholarship on the cultural and racial politics of schooling. The collection offers a variety of critical perspectives on race, analyzing the causes, consequences and manifestations of race, racism, and inequity in schooling. Unique to this updated edition are a variety of contributions by key CRT scholars published within the last five years, including an all-new section dedicated to the intersections of race and dis/ability within contemporary schooling. Each section concludes with a set of questions and discussion points to further engage with the issues discussed in the readings. This revised edition of a landmark publication documents the progress to date of the CRT movement and acts to further spur developments in education policy, critical pedagogy, and social justice, making it a crucial resource for students and educators alike.

**Critical Race Theory in Education** Sep 19 2021 Brings together several scholars from both law and education to provide some clarity on the status and future directions of Critical Race Theory, answering key questions regarding the "what" and "how" of the application of CRT to education.

*Aboriginal Women, Law and Critical Race Theory* Jun 24 2019 This book explores storytelling as an innovative means of improving understanding of Indigenous people and their histories and struggles including with the law. It uses the Critical Race Theory ('CRT') tool of 'outsider' or 'counter' storytelling to illuminate the practices that have been used by generations of Aboriginal women to create an outlaw culture and to resist their invisibility to law. Legal scholars are yet to use storytelling to bring the experiential knowledge of Aboriginal women to the centre of legal scholarship and yet this book demonstrates how this can be done by way of a new methodology that combines elements of CRT with speculative biography. In one chapter, the author tells the imagined story of Eliza Woree who featured prominently in the backdrop to the decision of the Supreme Court of Queensland in *Dempsey v Rigg* (1914) but whose voice was erased from the judgements. This accessible book adds a new and innovative dimension to the use of CRT to examine the nexus between race and settler colonialism. It speaks to those interested in Indigenous peoples and the law, Indigenous studies, Indigenous policy, Aboriginal and Torres Strait Islander history, feminist studies, race and the law, and cultural studies.

**Arabs and Muslims in the Media** Nov 09 2020 After 9/11, there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U.S. media. *Arabs and Muslims in the Media* examines this paradox and investigates the increase of sympathetic images of "the enemy" during the War on Terror. Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one, what she refers to as "simplified complex representations." This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist, then the storyline also includes a "positive" representation of an Arab, Muslim, Arab American, or Muslim American to offset the potential stereotype. Analyzing how TV dramas such as *The Practice*, *24*, *Law and Order*, *NYPD Blue*, and *Sleeper Cell*, news-reporting, and non-profit advertising have represented Arabs, Muslims, Arab Americans, and Muslim Americans during the War on Terror, this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality.

**Fugitive Cultures** Aug 07 2020 *Fugitive Cultures* examines how youth are being increasingly subjected to racial stereotyping and violence in various realms of popular culture, especially children's culture. But rather than dismissing popular culture, Henry Giroux addresses its political and pedagogical value as a site of critique and learning and calls for a reinvigorated critical relationship between cultural studies and those diverse cultural workers committed to expanding the possibilities and practices of democratic public life.

**Hermeneutics as Critique** Apr 14 2021 Hermeneutics has frequently been dismissed as useful only for literary and textual analysis. Some consider it to be Eurocentric or inherently relativistic and thus unsuited to social critique. Lorenzo C. Simpson offers a persuasive and powerful argument that hermeneutics is a valuable tool not only for critical theory but also for robustly addressing many of the urgent issues of today. Simpson demonstrates that hermeneutics exhibits significant interpretive advantages compared to competing explanatory modalities. While it shares with pragmatism a suspicion of essentialism, an understanding that disagreements are situated, and an insistence on the dialogical nature of understanding, it nevertheless resolutely rejects the relativistic accounts of rationality that are often associated with pragmatism. In the tradition of Gadamer, Simpson firmly establishes hermeneutics as a resource for both philosophy and the social sciences. He shows its utility for unpacking intractable issues in the philosophy of science, multiculturalism, social epistemology, and racial and social justice in the global arena. Simpson addresses fraught questions such as why recent claims that “race” has a biological basis lack grounding, whether female genital excision can be critically addressed without invidious ethnocentrism, and how to lay the foundations for meaningful cross-cultural dialogue and reparative justice. This book reveals how hermeneutics can be a worthy partner with critical theory in achieving emancipatory aims.

**Gender, Race, and Class in Media** Jul 26 2019 *Gender, Race, and Class in Media* provides students a comprehensive and critical introduction to media studies by encouraging them to analyze their own media experiences and interests. The book explores some of the most important forms of today’s popular culture—including the Internet, social media, television, films, music, and advertising—in three distinct but related areas of investigation: the political economy of production, textual analysis, and audience response. Multidisciplinary issues of power related to gender, race, and class are integrated into a wide range of articles examining the economic and cultural implications of mass media as institutions. Reflecting the rapid evolution of the field, the Sixth Edition includes 18 new readings that enhance the richness, sophistication, and diversity that characterizes contemporary media scholarship. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

**Race Is...Race Isn't** Oct 28 2019 The field of critical race theory has gotten increasingly more attention as an emerging perspective on race, the law, and policy. Critical race theory examines the social construction of the law, administrative policy, electoral politics, and political discourse in the U.S. *Race Is ? Race Isn't* presents a group of qualitative research studies, literature reviews, and commentaries that collectively articulate critical race theory in secondary and post-secondary educational settings. The editors explore links and conflicts with other areas of difference, including language, ethnicity, gender, and sexual orientation, with the goal of opening a dialogue about how critical race theory can be incorporated into education research methodologies.

**Cultural Melancholy** May 04 2020 A daring cultural and literary studies investigation, *Cultural Melancholy* explores the legacy of unresolved grief produced by ongoing racial oppression and resistance in the United States. Using acute analysis of literature, drama, musical performance, and films, Singleton demonstrates how rituals of racialization and resistance transfer and transform melancholy discreetly across time, consolidating racial identities and communities along the way. He also argues that this form of impossible mourning binds racialized identities across time and social space by way of cultural resistance efforts. Singleton develops the concept of “cultural melancholy” as a response to scholarship that calls for the separation of critical race studies and psychoanalysis, excludes queer theoretical approaches from readings of African American literatures and cultures, and overlooks the status of racialized performance culture as a site of serious academic theorization. In doing so, he weaves critical race studies, psychoanalysis, queer theory, and performance studies into conversation to uncover a host of hidden dialogues—psychic and social, personal and political, individual and collective—for the purpose of promoting a culture of racial grieving, critical race consciousness, and collective agency. Wide-ranging and theoretically bold, *Cultural Melancholy* counteracts the racial legacy effects that plague our twenty-first century multiculturalism.

**Race and Ethnicity** Jun 16 2021 Broad-ranging and comprehensive, this completely revised and updated textbook is a critical guide to issues and theories of ‘race’ and ethnicity. It shows how these concepts came into being during colonial domination and how they became central – and until recently, unquestioned – aspects of social identity and division. This book provides students with a detailed understanding of colonial and post-colonial constructions, changes and challenges to race as a source of social division and inequality. Drawing upon rich international case studies from Australia, Guyana, Canada, Malaysia, the Caribbean,

Mexico, Ireland and the UK, the book clearly explains the different strands of theory which have been used to explain the dynamics of race. These are critically scrutinised, from biological-based ideas to those of critical race theory. This key text includes new material on changing multiculturalism, immigration and fears about terrorism, all of which are critically assessed. Incorporating summaries, chapter-by-chapter questions, illustrations, exercises and a glossary of terms, this student-friendly text also puts forward suggestions for further project work. Broad in scope, interactive and accessible, this book is a key resource for undergraduate students of 'race' and ethnicity across the social sciences.

*Critical Race Theory* Oct 21 2021 In this wide-ranging second edition, Richard Delgado and Jean Stefancic bring together the finest, most illustrative, and highly accessible articles in the fast-growing legal genre of Critical Race Theory. In challenging orthodoxy, questioning the premises of liberalism, and debating sacred wisdoms, Critical Race Theory scholars writing over the past few years have indelibly changed the way America looks at race. This edition contains treatment of all the topics covered in the first edition, along with provocative and probing questions for discussion and detailed suggestions for additional reading, all of which set this fine volume apart from the field. In addition, this edition contains five new substantive units -- crime, critical race practice, intergroup tensions and alliances, gay/lesbian issues, and transcending the black-white binary paradigm of race. In each of these areas, groundbreaking scholarship by the movement's founding figures as well as the brightest new stars provides immediate entry to current trends and developments in critical civil rights thought.

*'Race' and Sport* Feb 10 2021 Critical Race Theory provides a framework for exploring racism in society, taking into account the role of institutions and drawing on the experiences of those affected. Applied to the world of sport, this framework can reveal the underlying social mores and institutionalised prejudices that have helped perpetuate those racial stereotypes particular to sport, and those that permeate broader society. In this groundbreaking sociological investigation, Kevin Hylton takes on the controversial subject of racial attitudes in sport and beyond. With sport as his primary focus, Hylton unpacks the central concepts of 'race', ethnicity, social constructionism and racialisation, and helps the reader navigate the complicated issues and debates that surround the study of 'race' in sport. Containing rigorous and insightful analysis throughout, the book explores key topics such as: the origins, applications and terminology of Critical Race Theory the meaning of 'whiteness' the media, sport and racism anti-racism and sport genetics and scientific racism. The contested concepts that define the subject of 'race' in sport present a constant challenge for academics, policy makers and practitioners in the development of their ideas, policies and interventions. This innovative and challenging book is essential reading for anybody looking to fully understand this important subject.

*Power to the Transfer* Jan 24 2022 Currently, U.S. community colleges serve nearly half of all students of color in higher education who, for a multitude of reasons, do not continue their education by transferring to a university. For those students who do transfer, often the responsibility for the application process, retention, graduation, and overall success is placed on them rather than their respective institutions. This book aims to provide direction toward the development and maintenance of a transfer receptive culture, which is defined as an institutional commitment by a university to support transfer students of color. A transfer receptive culture explicitly acknowledges the roles of race and racism in the vertical transfer process from a community college to a university and unapologetically centers transfer as a form of equity in the higher education pipeline. The framework is guided by critical race theory in education, which acknowledges the role of white supremacy and its contemporary and historical role in shaping institutions of higher learning.

**Critical Rhetorics of Race** Nov 02 2022 In this collection scholars seek to examine the complicated and contradictory terrain of the rhetorics of race while moving the field of communication in a more intellectually productive direction.

**Race and Media** Oct 01 2022 A foundational collection of essays that demonstrate how to study race and media From graphic footage of migrant children in cages to #BlackLivesMatter and #OscarsSoWhite, portrayals and discussions of race dominate the media landscape. *Race and Media* adopts a wide range of methods to make sense of specific occurrences, from the corporate portrayal of mixed-race identity by 23andMe to the cosmopolitan fetishization of Marie Kondo. As a whole, this collection demonstrates that all forms of media—from the sitcoms we stream to the Twitter feeds we follow—confirm racism and reinforce its ideological frameworks, while simultaneously giving space for new modes of resistance and understanding. In each chapter, a leading media scholar elucidates a set of foundational concepts in the study of race and media—such as the burden of representation, discourses of racialization, multiculturalism, hybridity, and the visibility of race. In doing so, they offer tools for media literacy that include rigorous analysis of texts, ideologies, institutions and structures, audiences and users, and technologies. The authors then apply these concepts to a wide range of media and the diverse communities that engage with them in order to uncover new theoretical frameworks and methodologies. From advertising and music to film festivals, video games, telenovelas, and social media, these essays engage and employ contemporary dialogues and struggles for social justice by racialized communities to push media forward. *Critical Race Theory* Aug 31 2022 In the past few years, a new generation of progressive intellectuals has dramatically transformed how law, race, and racial power are understood and discussed in America. Questioning the old assumptions of both liberals and conservatives with respect to the goals and the means of traditional civil rights reform, critical race theorists have presented new paradigms for understanding racial injustice and new ways of seeing the links between race, gender, sexual

orientation, and class. This reader, edited by the principal founders and leading theoreticians of the critical race theory movement, gathers together for the first time the movement's most important essays.

**Critical Race Theory in Education** Jun 28 2022 Critical Race Theory (CRT) is an international movement of scholars working across multiple disciplines; some of the most dynamic and challenging CRT takes place in Education. This collection brings together some of the most exciting and influential CRT in Education. CRT scholars examine the race-specific patterns of privilege and exclusion that go largely unremarked in mainstream debates. The contributions in this book cover the roots of the movement, the early battles that shaped CRT, and key ideas and controversies, such as: the problem of color-blindness, racial microaggressions, the necessity for activism, how particular cultures are rejected in the mainstream, and how racism shapes the day-to-day routines of schooling and politics. Of interest to academics, students and policymakers, this collection shows how racism operates in numerous hidden ways and demonstrates how CRT challenges the taken-for-granted assumptions that shape educational policy and practice. The chapters in this book were originally published in the following journals: *International Journal of Qualitative Studies in Education*; *Race Ethnicity and Education*; *Discourse: Studies in the Cultural Politics of Education*; *Critical Studies in Education*.

**The Cultural Defense** Aug 19 2021 Publisher's description: In a trial in California, Navajo defendants argue that using the hallucinogen peyote to achieve spiritual exaltation is protected by the Constitution's free exercise of religion clause, trumping the states' right to regulate them. An Ibo man from Nigeria sues Pan American World Airways for transporting his mother's corpse in a cloth sack. Her arrival for the funeral face down in a burlap bag signifies death by suicide according to the customs of her Ibo kin, and brings great shame to the son. In Los Angeles, two Cambodian men are prosecuted for attempting to eat a four month-old puppy. The immigrants' lawyers argue that the men were following their own "national customs" and do not realize their conduct is offensive to "American sensibilities." What is the just decision in each case? When cultural practices come into conflict with the law is it legitimate to take culture into account? Is there room in modern legal systems for a cultural defense? In this remarkable book, Alison Dundes Renteln amasses hundreds of cases from the U.S. and around the world in which cultural issues take center stage—from the mundane to the bizarre, from drugs to death. Though cultural practices vary dramatically, Renteln demonstrates that there are discernible patterns to the cultural arguments used in the courtroom. The regularities she uncovers offer judges a starting point for creating a body of law that takes culture into account. Renteln contends that a systematic treatment of culture in law is not only possible, but ultimately more equitable. A just pluralistic society requires a legal system that can assess diverse motivations and can recognize the key role that culture plays in influencing human behavior. The inclusion of evidence of cultural background is necessary for the fair hearing of a case.

**Critical Race Theory in the Academy** Jan 30 2020 Critical Race Theory in the Academy explores the deep implications of race and its effects on the expanse of the American social fabric and its fragile democratic process. This volume contributes to a more effective, powerful, and insightful theorization of racism across the social spectrum while furthering the movement for greater equity in higher education and beyond. The audience for this book is broad and should be of great interest and value to all Americans who fight against racism which is focused on the destruction of Black people and other people of color. Ideally, educators, scholars, and practitioners will be compelled to engage the ideas within this volume to break down the color line and challenge the problematic master narrative in education and other aspects of society. Critical Race Theory in the Academy offers current applications, debates, theories, strategies, and evolutions about critical race theory (CRT), with particular attention to CRT's intersections with the field of higher education and beyond. As a part of the CRT corpus, this volume details some of the most relevant and current topics deployed in varied disciplines of the academy, confronting the complex interplay of race, racism, education, and social justice in the twenty-first century. Specifically, the authors explore topics from health disparities, politics, religion, literature, music, social work, psychology, sports, distance learning, media bias, affirmative action, to education policies, practices and scholarship. The chapters in this volume should help navigate the tensions in the academy and beyond to work toward alleviating institutionalized racism. Praise for Critical Race Theory in the Academy: "The field of Critical Race Theory is enriched by this important collection of new and original scholarship. Vernon Farmer has brought together a dynamic and eclectic mix of radical voices, from multiple disciplinary backgrounds, including both established and early career scholars. The result is a volume that constantly challenges and surprises the reader." David Gillborn Professor of Critical Race Studies University of Birmingham UK Founding Editor of *Race Ethnicity & Education* "Critical Race Theory in the Academy has excavated the terrain of critical race theory to unearth multiple perspectives that are central to defining the fundamental contours of the field. Each essay enhances the ways in which we read and understand the complexity of critical race theory. It will be an invaluable resource for building a critical academy." Aileen Moreton-Robinson Queens and University of Technology, Australia Author of *The White Possessive: Property, Power and Indigenous Sovereignty* "Vernon Lee Farmer has done it again and for the final time. He has pulled together a star-studded cast of academics of color to address an essential concern of the academy. Throughout his career, Farmer has demonstrated the uncanny ability to identify matters that require attention, and attacked them with vigor. In doing so, he provided us with high impact resources that are beneficial to the professional trajectory of scholars of color. This book is no different, and we all should race to the bookstore to add this instant classic to our personal library." Jerlando F. L. **Race and the Cultural Industries** Jul 30 2022 Studies of race and media are dominated by textual approaches that explore the

politics of representation. But there is little understanding of how and why representations of race in the media take the shape that they do. How, one might ask, is race created by cultural industries? In this important new book, Anamik Saha encourages readers to focus on the production of representations of racial and ethnic minorities in film, television, music and the arts. His interdisciplinary approach combines critical media studies and media industries research with postcolonial studies and critical race perspectives to reveal how political economic forces and legacies of empire shape industrial cultural production and, in turn, media discourses around race. *Race and the Cultural Industries* is required reading for students and scholars of media and cultural studies, as well as anyone interested in why historical representations of 'the Other' persist in the media and how they are to be challenged.

**Culture and Tactics** Mar 02 2020 Juxtaposes Antonio Gramsci's work and critical race theory to offer a new understanding of tactics as a transformative practice. While scholars of social and political movements tend to analyze tactics in terms of their effectiveness in achieving specific outcomes, Robert F. Carley argues by contrast that tactics are, above all, what social movements do. They are not mere means to an end so much as they are a public form of expression pointing out injustices and making just demands. Rooted in a highly original analysis of the tactically mediated relationship between race and mobilization in the work of Italian philosopher and revolutionary Antonio Gramsci, *Culture and Tactics* demonstrates how tactics impact the organizational structures of social movements and expand the affinities of political communities. Carley looks at how Gramsci used innovative tactics to bridge perceptions of racial differences between factory workers and subaltern groups, the latter having been denigrated to the point of subhumanity by a complex Italian national racial economy. Newly envisioning Gramsci as a theorist of race within a broader context of social struggle, Carley connects Gramsci's insights into the political mobilizations of racialized subaltern groups to contemporary critical race theory and cultural studies of racialization and racism. Speaking across disciplines and drawing on a number of empirical examples, Carley offers a battery of original concepts to assist scholars and activists in analyzing the tactical practices of protests in which race is a central factor. Robert F. Carley is Assistant Professor of International Studies at Texas A&M University, College Station.

**Mestizaje** Apr 26 2022 Focusing on the often unrecognized role race plays in expressions of Chicano culture, *Mestizaje* is a provocative exploration of the volatility and mutability of racial identities. In this important moment in Chicano studies, Rafael Pérez-Torres reveals how the concepts and realities of race, historical memory, the body, and community have both constrained and opened possibilities for forging new and potentially liberating multiracial identities. Informed by a broad-ranging theoretical investigation of identity politics and race and incorporating feminist and queer critiques, Pérez-Torres skillfully analyzes Chicano cultural production. Contextualizing the history of mestizaje, he shows how the concept of mixed race has been used to engage issues of hybridity and voice and examines the dynamics that make mestizo and mestiza identities resistant to, as well as affirmative of, dominant forms of power. He also addresses the role that mestizaje has played in expressive culture, including the hip-hop music of Cypress Hill and the vibrancy of Chicano poster art. Turning to issues of mestizaje in literary creation, Pérez-Torres offers critical readings of the works of Emma Pérez, Gil Cuadros, and Sandra Cisneros, among others. This book concludes with a consideration of the role that the mestizo body plays as a site of elusive or displaced knowledge. Moving beyond the oppositions—nationalism versus assimilation, men versus women, Texans versus Californians—that have characterized much of Chicano studies, *Mestizaje* synthesizes and assesses twenty-five years of pathbreaking thinking to make a case for the core components, sensibilities, and concerns of the discipline. Rafael Pérez-Torres is professor of English at the University of California, Los Angeles. He is author of *Movements in Chicano Poetry: Against Myths, Against Margins*, coauthor of *To Alcatraz, Death Row, and Back: Memories of an East LA Outlaw*, and coeditor of *The Chicano Studies Reader: An Anthology of Aztlán, 1970–2000*.
