The 100 Oct 07 2020 The first book in the New York Times bestselling series that inspired the hit CW television show. No one has set foot on Earth in centuries -- until now. Ever since a devastating nuclear war, humanity has lived on spaceships far above Earth's radioactive surface. Now, one hundred juvenile delinquents -- considered expendable by society -- are being sent on a dangerous mission: to recolonize the planet. It could be their second chance at life...or it could be a suicide mission. CLARKE was arrested for treason, though she's haunted by the memory of what she really did. WELLS, the chancellor's son, came to Earth for the girl he loves -- but will she ever forgive him? Reckless BELLAMY fought his way onto the transport pod to protect his sister, the other half of the only pair of siblings in the universe. And GLASS managed to escape back onto the ship, only to find that life there is just as dangerous as she feared it would be on Earth. Confronted with a savage land and haunted by secrets from their pasts, the hundred must fight to survive. They were never meant to be heroes, but they may be mankind's last hope.

[The 100 Most Entertaining Predictions About the 21st Century](#) Jun 26 2022 The 100 Most Entertaining Predictions About the 21st Century is a fun look at the predictions wacky and wise that have been made about our new century and millennium. The turning of the 21st century has always attracted predictions, from predictors of all sorts (sci-fi writers, psychics, seers, inventors, modern scientists, and even a future prime minister.) They have felt compelled to tell us what was going to happen at the dawn of the third millennium. Now that were there, we thought it would be fun to research what has been predicted about our day and see how the predictions turned out. The result is The 100 Most Entertaining Predictions About the 21st Century. Some of the predictions are wacky (see Underwear Converted into Candy). Some are surprisingly accurate (see Modern Gas Stations). On some the jury is still out: Will hovercraft replace the automobile? (see Highways Give Way to Hovercraft). There was a multitude of predictions to choose from. We narrowed them down to the 100 we found the most interesting. Enjoy!

Clarke strikes out for Mount Weather, in search of other colonists, while Bellamy is determined to rescue his sister, no matter the cost. And back on the ship, Glass faces

Parents R Us: 100 Parenting Tricks For The 21st Century Jul 28 2022 Parenting is about creativity, thinking outside the box, reading between the lines and listening to the unsaid words of children. Sometime you get it right and other times the wrong decisions are taken. To most of us, being parents just happened but it must be said that even the best of us need help when it comes to the never ending road of parenting.
