Meathead Mar 02 2020 New York Times Bestseller Named "22 Essential Cookbooks for Every Kitchen" by SeriousEats.com Named "25 Favorite Cookbooks of All Time" by Christopher Kimball Named "Best Cookbooks Of 2016" by Chicago Tribune, BBC, Wired, Epicurious, Leite's Culinaría Named "100 Best Cookbooks of All Time" by Southern Living Magazine For succulent results every time, nothing is more crucial than understanding the science behind the interaction of food, fire, heat, and smoke. This is the definitive guide to the concepts, methods, equipment, and accessories of barbecue and grilling. The founder and editor of the world's most popular BBQ and grilling website, **AmazingRibs.com**, "Meathead" Goldwyn applies the latest research to backyard cooking and 118 thoroughly tested recipes. He explains why dry brining is better than wet brining; how marinades really work; why rubs shouldn't have salt in them; how heat and temperature differ; the importance of digital thermometers; why searing doesn't seal in juices; how salt penetrates but spices don't; when charcoal beats gas and when gas beats charcoal; how to calibrate and tune a grill or smoker; how to keep fish from sticking; cooking with logs; the strengths and weaknesses of the new pellet cookers; tricks for rotisserie cooking; why cooking whole animals is a bad idea, which grill grates are best; and why beer-can chicken is a waste of good beer and nowhere close to the best way to cook a bird. He shatters the myths that stand in the way of perfection. Busted misconceptions include: • Myth: Bring meat to room temperature before cooking. Busted! Cold meat attracts smoke better. • Myth: Soak wood before using it. Busted! Soaking produces smoke that doesn't taste as good as dry fast-burning wood. • Myth: Bone-in steaks taste better. Busted! The calcium walls of bone have no taste and they just slow cooking. • Myth: You should sear first, then cook. Busted! Actually, that overcooks the meat. Cooking at a low temperature first and searing at the end produces evenly cooked meat. Lavishly designed with hundreds of illustrations and full-color photos by the author, this book contains all the sure-fire recipes for traditional American favorites and many more outside-the-box creations. You'll get recipes for all the great regional barbecue sauces; rubs for meats and vegetables; Last Meal Ribs, Simon & Garfunkel Chicken; Schmancy Smoked Salmon; The Ultimate Turkey; Texas Brisket; Perfect Pulled Pork; Sweet & Sour Pork with Mumbo Sauce; Whole Hog; Steakhouse Steaks; Diner Burgers; Prime Rib; Brazilian Short Ribs; Rack Of Lamb Lollipops; Huli-Huli Chicken; Smoked Trout Florida Mullet -Style; Baja Fish Tacos; Lobster, and many more.

Home Production of Quality Meats and Sausages Sep 19 2021 There has been a need for a comprehensive one-volume reference on the manufacture of meats and sausages at home. There are many cookbooks loaded with recipes which do not build any foundation for the serious hobbyist to follow. This leaves him with little understanding of the sausage making process and afraid to introduce his own ideas. There are professional books that are written for meat plant managers or graduate students, unfortunately, these works are written in such difficult technical terms, that most of them are beyond the comprehension of an average person. Home Production of Quality Meats and Sausages bridges the gap that exists between highly technical textbooks and the requirements of the typical hobbyist. In order to simplify this gap to the absolute minimum, technical terms were substituted with their equivalent but simpler terms and many photographs, drawings and tables were included. The book covers topics such as curing and making brines, smoking meats and sausages, U.S. Standards, making fresh, smoked, emulsified, fermented and air dried products, making special sausages such as head cheeses, blood and liver sausages, low salt, low fat and Kosher products, hams, bacon, butts and loins, poultry, fish and game, creating your own recipes and much more... To get the reader started 172 recipes are provided which were chosen for their originality and historical value. They carry an enormous value as a study material and as a valuable resource on making meat products and sausages. Although recipes play an important role in these products, it is the process that ultimately decides the sausage quality. It is perfectly clear that the authors don't want the reader to copy the recipes only: "We want him to understand the sausage making process and we want him to create his own recipes. We want him to be the sausage maker."
