3000 AD Nov 19 2021 The year is 3000 AD. In 2720, man's failed social system had destroyed civilization, forcing the remaining humans to begin again. A new social system was adopted that embarked man on the unforeseen path to the Apocalypse. (Excerpt from 5th page of Chapter 18) "The Horsemen approached Jared and Destiny with unimaginable speed. Scant yards away, their horses stopped and reared with anger flashing across their eyes as Gabriel stepped forward forbidding their passage. Gabriel stood in front of them defiantly, a shining white star standing against thunderous clouds of fire. Gabriel seemed so small and fragile, yet Destiny could feel the power surging from him in waves that could be released to instantly subdue the Horsemen if the need arose. The horses stamped and snorted impatiently as the Horsemen looked at Gabriel, at the humans, and then looked up to the heavens. The Horsemen paused and raised their swords to the sky as blood red fire erupted from the edges of their blades."

Bo Sebastian, a Consulting Hypnotist, helps you retrain the neural pathways of your brain. Turn your dreams into reality by shifting your thoughts. Learn to manifest what you have been hoping for your entire life! This book teaches you simple steps to create a more balanced you. **Start with Why** May 14 2021 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. **START WITH WHY** asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. **START WITH WHY** shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

The Bridge of Silver Wings 2009 Aug 17 2021 For the past two years (2006-2008) The Bridge of Silver Wings has earned a name for itself both as a series of poems published in different e-zines and as a book first published in 2007. What makes this 2009 edition a special one is the inclusion of five new poems: "Angel of Better Days to Come"; "Midnight Flight of the Poetry Angels"; "Photographed Light of My Grandmother's Soul"; "There upon a Bough of Hope and Audacity"; and, "What Angels Call a Poet." Readers exploring the pages of this book are likely to experience it in different ways as they move back and forth between one poetic state of being and another. The Bridge of Silver Wings 2009 may at times appear to be nothing more than a silk-thin illusion --resembling at moments either a terrifying nightmare or a healing vision--spread across an evening mist. While at other times it will register as solid as a concrete sidewalk or a giant boulder. (from author's Foreword)

Recipes for a New Beginning Jul 28 2022 Recipes for a New Beginning. Transylvanian Jewish Stories of Life, Hunger, and Hope is a literary and scholarly work, a cookbook, a cultural dictionary, and a memorial album of Transylvanian Jews. It is a historical summary of the Transylvanian Jewish community's past 100 years based on 10 in-depth interviews. The author conducted hundreds of hours of interviews and joint cooking with Holocaust survivors. The stories of the interviewees are supported by substantial archival research. Survival and starting anew are in the focus of this readable and gap-filling illustrated book, which conjures up the memories of its contributors ingeniously. "How do the senses remember? What begins as a conversation about food, followed by cooking what is recalled, sometimes only vaguely, and then eating together, leads to the revelation of traumatic memories. Shining a light on ten elderly Holocaust survivors who were children or teenagers during the war and stayed in Transylvania after the war, this beautiful book brings together their stories, photographs, and food to reveal the power of the senses to bring forth an uneasy mix of culinary nostalgia and traumatic memory. The body is indeed an archive, and this book plumbs its depths in a deeply personal way." - Barbara Kirshenblatt-Gimblett, Ronald S. Lauder Chief Curator, Core Exhibition, POLIN Museum of the History of Polish Jews

The Book of Revelation: A New Beginning Sep 29 2022 "The Book of Revelation: A New Beginning" contains the hidden secrets of Saint John's Revelation, and as you know, it is one of the most debated and most difficult books of all the scriptures to read and understand because of the extreme symbolism tied to it. Man has always assumed the word of God's prophets and their stories were indisputable just because of their eminence in interpreted them as being true. Man has forgotten the history of himself, Earth, God, the origin of the universe, and how the scriptures have been documented, interpreted, and strictly passed down by our ancestors and religious leaders. As symbolic as Revelation is it has nothing to do with the end days or even about a solitary Anti-Christ as we understand it nor is it about Jesus coming to save you. In truth, Saint John's Revelation is your own guide showing you that you no longer need to look at yourself as a sinner because you have bared your cross, like Jesus, and now the time has come for you to ascend to a higher state of Mind. The book of Revelation: "A New Beginning" is a book that will help open the gates of your soul memories so you can become aware of your own divineness, and that you are a God too. My fellow Gods, what is coming to an end is the old ways of perceiving and understanding God. It is not that God is a mystery. It is you that is the mystery, and when fear is resolved within, you are then ready to open up to the hidden secrets behind the Book of Revelation that religions have kept as a secret for

thousands of years, either on purpose or because of ignorance.

The End of the World is Just the Beginning Sep 05 2020 A New York Times Bestseller! 2019 was the last great year for the world economy. For generations, everything has been getting faster, better, and cheaper. Finally, we reached the point that almost anything you could ever want could be sent to your home within days - even hours - of when you decided you wanted it. America made that happen, but now America has lost interest in keeping it going. Globe-spanning supply chains are only possible with the protection of the U.S. Navy. The American dollar underpins internationalized energy and financial markets. Complex, innovative industries were created to satisfy American consumers. American security policy forced warring nations to lay down their arms. Billions of people have been fed and educated as the American-led trade system spread across the globe. All of this was artificial. All this was temporary. All this is ending. In The End of the World is Just the Beginning, author and geopolitical strategist Peter Zeihan maps out the next world: a world where countries or regions will have no choice but to make their own goods, grow their own food, secure their own energy, fight their own battles, and do it all with populations that are both shrinking and aging. The list of countries that make it all work is smaller than you think. Which means everything about our interconnected world - from how we manufacture products, to how we grow food, to how we keep the lights on, to how we shuttle stuff about, to how we pay for it all - is about to change. A world ending. A world beginning. Zeihan brings readers along for an illuminating (and a bit terrifying) ride packed with foresight, wit, and his trademark irreverence.
