With its new definition of sculptural styling, performance, handling and innovative style, the E-Type or XKE series in the USA, created a car of global impact that remains a great classic of all time. *The All-American Hero and Jaguar's Racing E-Types Feb 29 2020* First seen by the wider world at the 1961 Geneva Motor Show, the Jaguar E-type redefined perceptions of how a sports car could - and perhaps should - look. No less a figure than Enzo Ferrari is said to have described it as "the most beautiful car in the world". Small wonder that demand swiftly exceeded supply after Jaguar initially laid down plans to build the car in relatively small numbers. It was an instant hit on racing circuits too: little more than a month after the launch, Graham Hill took a roadster to victory on its debut at Oulton Park. Chassis 875027, the focus of this story, was the first E-type campaigned by American racing entrepreneur Briggs Cunningham's famous team and its performances helped persuade Jaguar to use the E-type as the basis for a competition thoroughbred that has become one of the most coveted of all time: the Lightweight The E-type evolved from a distinguished series of Jaguar sports cars that notched up a sequence of victories at Le Mans in the 1950s. The car's development is covered in detail and illustrated with exquisite cutaways. Briggs Cunningham had an interesting tale to tell away from motorsport - as did many of his racing companions. He skippered

the winning yacht in the America's Cup; his right-hand man Alfred Momo won the Targa Florio as a co-driver, aged 14, and later climbed onto the wing of an airborne biplane to repair a leaking fuel line. Their contrasting backgrounds are covered in detail. Before aligning with Jaguar, Cunningham harboured hopes of putting together an all-American team capable of winning the Le Mans 24 Hours. His eponymous cars made their mark, without ever quite fulfilling his dream, and feature as part of an engaging wider story. In addition to running some of motorsport's best-known names, including Bruce McLaren, Dan Gurney and Jack Brabham, Cunningham was also associated with several unsung heroes. Here, racers such as John Fitch, Phil Walters and Walt Hansgen receive the credit they deserve. The book is handsomely illustrated with period photographs from some of the world's most respected collections, as well as a gallery of studio photographs showing the car as it is today.

**They Were Her Property** Mar 12 2021 Winner of the Los Angeles Times Book Prize in History: a bold and searing investigation into the role of white women in the American slave economy “Stunning.”—Rebecca Onion, Slate “Makes a vital contribution to our understanding of our past and present.”—Parul Sehgal, New York Times “Bracingly revisionist. . . . [A] startling corrective.”—Nicholas Guyatt, New York Review of Books Bridging women’s history, the history of the South, and African American history, this book makes a bold argument about the role of white women in American slavery. Historian Stephanie E. Jones-Rogers draws on a variety of sources to show that slave-owning women were sophisticated economic actors who directly engaged in and benefited from the South’s slave market. Because women typically inherited more slaves than land, enslaved people were often their primary source of wealth. Not only did white women often refuse to cede ownership of their slaves to their husbands, they employed management techniques that were as effective and brutal as those used by slave-owning men. White women actively participated in the slave market, profited from it, and used it for economic and social empowerment. By examining the economically entangled lives of enslaved people and slave-owning women, Jones-Rogers presents a narrative that forces us to rethink the economics and social conventions of slaveholding America.
