Refuge for ships in distress at sea. Limitations within Law of the Sea Convention Sep 29 2022 Essay from the year 2019 in the subject Politics - International Politics - Topic: Miscellaneous, grade: 4.5, Göteborg University (School of Economics, Business and Law), course: International Law in the Maritime Context, language: English, abstract: This case study presents two critical questions: What are the dangers of exposing a distressed tanker to the open seas over extended period of time? To what extent would providing relief (access to port) to a ship in distress harm the coastal state rendering such assistance? These two questions present one of the most controversial and pressing legal issue within law of the sea in the wake of high profile incidents of vessel-source pollution. The unwillingness of coastal states to grant access to their ports to vessels in distress at sea has attracted parallel opinions from different schools of thought. This could perhaps be attributed to the fact that UNCLOS (1982) which is considered as the constitution of the ocean; fails to provide an express legal order to matters relating to such access. An analysis of the shortcomings within the 1982 LOSC on issues relating to refuge for ships in distress at sea forms the basis of this discussion. Build-up to the discussion will include a brief overview to the customary law perspective on issues of refuge for such ships and the international attitude to this issue through present state practices.

Port State Control Jan 22 2022 Port State Control, Second Edition is a comprehensive publication dealing with the full implications and regulations of port State control. It provides a detailed analysis of the legal framework relating to port State control, including the most recent developments in this area. It covers not only the regional agreements on port State control and the EU legislation on this subject but also the background of the port State control process, its implications in practice and its effect on the ISM Code and the classification societies. The book covers topics such as: Amendments and changes to the regional port state control systems The addition of an appeal procedure to the Paris MOU Issues related to the ports of refuge and the urgency for authorities to draw up appropriate plans for places of refuge following the recent incidents The ISPS Code for maritime security in the light of newly recognised vulnerability against terrorist attacks Update to Equasis Progress with Qualship regime under US Port State Control system. This book will be an invaluable reference tool for shipping lawyers around the world.

[The Eastern Arctic Seas Encyclopedia](#) Aug 05 2020 This Encyclopedia is designed to accumulate and systematize our knowledge about the unique natural water areas - the Laptev, East Siberian and Chukchi seas, their wealth, the events that took place on its waters and shores, and the remarkable people whose lives were and are closely intertwined with the seas. The Encyclopedia contains about 1,500 terms and concepts related to the seas in alphabetical order. It describes geographical features: rivers, lakes, straits, bays; provides information about towns, seaports, transport communications, basic aquatic biological species, nature reserves, national and international programs for the study of the sea, research institutes, historical monuments, activities of prominent explorers and travelers, researchers and scientists. The Encyclopedia also includes a chronology of major historical events connected with the Eastern Arctic seas for more than 400 years.

Contemporary Regulation of Marine Living Resources and Pollution Jul 24 2019 Between 2001 and 2002 the Maritime Institute of the Universiteit Gent and the Centre for International Law of the Vrije Universiteit Brussel joined efforts and hosted Emeritus Professor Dermott Devine as holder of the International Francqui Chair, around the central themes of fisheries and coastal state jurisdiction with respect to marine pollution. As Emeritus Director of the Institute of Marine and Environmental Law, Professor Devine was available for discussion and participation in the scientific life of the different Belgian universities having similar fields of interest. Within this context six classes of excellence were organized with the participation of interested Belgian colleagues across the board, belonging to universities adhering to different basic philosophies and even forming part of different linguistic communities. These classes culminated in a final symposium where Professor Devine gave a birds-eye view of the general theme, overarching and synthesizing the different subjects covered during the previous classes of excellence. This book offers a reworked compilation of all the contributions of the key-note speakers to the classes of excellence.

Refuge Feb 20 2022 Photographer Ian Shive shows you the largest network of protected lands and waters in the world, the National Wildlife Refuge System. From the rugged reaches of Kenai, Alaska, to the vibrant coral reefs of the Palmyra Atoll, the National Wildlife Refuge System is dedicated to the preservation of America's natural habitats. Through the lens of Ian Shive, recipient of the Ansel Adams Award for Conservation Photography, Refuge will show you the greatest of these landscapes and wildlife, including the migratory birds of Midway Atoll, the golden prairies of the Rocky Flats, and more. Learn from America's leading experts: Includes essays from top environmental and conservation organizations such as the National Wildlife Refuge Association, Earth Island Institute, and the Arctic Refuge Defense Campaign, giving you the context that you need to appreciate these natural wonders. Plan your own journey: A refuge map and index of traversable locations allows you to start planning your trip of a lifetime to these hallowed refuges. Over 300 awe-inspiring images will let you experience more than 40 refuges right from your coffee table, including Alaska Maritime National Wildlife Refuge (NWR), Rachel Carson NWR, Bayou Sauvage NWR, Valle de Oro NWR, National Elk Refuge, and more.

Places of Refuge for Ships Aug 29 2022 Written by scholars and practitioners, this work consists of 20 multidisciplinary chapters addressing the law, policy and management aspects of the problem of places of refuge for ships in need of assistance. Specific chapters focus on the experiences and approaches of Australia, Belgium, Canada, Denmark, Germany, United Kingdom and United States.

[Alaska Maritime, National Wildlife Refuge](#) Jun 26 2022

Places of Refuge Apr 24 2022 The need for specific legal arrangements governing ships in distress and places of refuge is one of the most topical problems in both public and private maritime law today. The headline-grabbing shipping disasters involving the loss of the Erika (1999) and the Prestige (2002) attracted the attention of the International Maritime Organization, the Comit Maritime International (CMI), the European Union, national maritime authorities around the globe, and the maritime industry in general. Additionally, the impact of pollution on local economies and the environment has attracted much public interest. This book serves as an authoritative source of current international law in this field. It provides clarity on the scope of the right of access, the conditions under which coastal authorities may deny access, the liability of authorities granting or denying access, the basis and the conditions of financial securities, and the obligation to establish contingency plans. Contents include: an ove
